Skid Steer Tires and OTR Solid Tires

WonRay Skid steer tires with all advantages of solid tires.

- Puncture proof : Get more work finished on time without costly interruptions for flat tire replacements.
- High load Capacity: .
- Longer life : Solid Skid steer tires life will at least 2-3 times longer than pneumatic tires.

Beside the normal advantages of solid tires . WonRay skid steer tires with big and quite deep aperture holes on side. The big sizes aperture holes can only be made when the technology good enough to make sure the holes will not easy to broke during heavy load running.

---Heat release much more quickly.

---Better shock absorption.

WonRay skid Steer tires use special material on the tread surface. So the tires have deeper pattern and have better wear resistant.

Brand

WonRay® and WRST® are two brands registered by Yantai WonRay Rubber Tyre CO.,LTD.
